

Pollinator Water Bucket Instructions

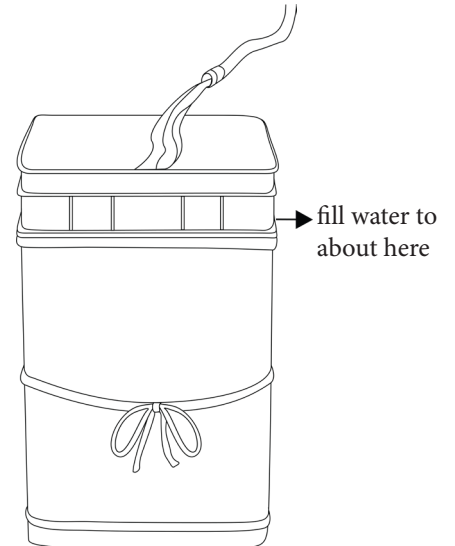

How to Use:

1. If possible, place bucket near areas frequented by pollinators, such as gardens, flowerbeds, etc.

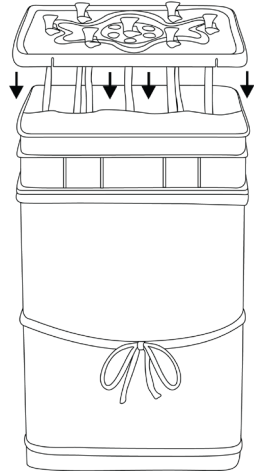

2. Remove the lid.

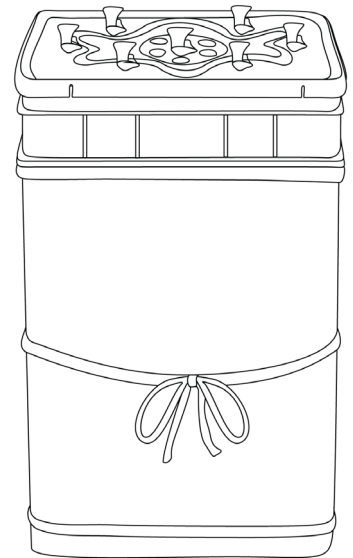

3. Fill the bucket with water until it is about 1 inch from the top.

4. Place the lid back on the bucket, ensuring that the burlap is fully submerged in the water.

5. Firmly snap the lid back onto the bucket.

6. Your water source is ready for pollinators to enjoy!
