

Washing Station Bucket:

How to Use:

1. Insert the nozzle system into the adapter mount located at the bottom of the bucket (push hard!). Make sure the nozzle is turned to “C” for closed.
2. Place the washing station bucket on a sturdy surface or tie a rope to the bucket handle and secure it in the desired location.
3. Remove the lid and fill the bucket with water until it is 2 inches from the top.
4. Firmly press the lid back onto the bucket.
5. Turn the nozzle to “O” for open to allow water flow and turn it to “C” for closed when done, enjoy!

Enjoy your Washing Station Bucket!
